The Governor and the Alabama and Chattanooga Railroad.

TRENTON, GA., July 25, 1871.

Editor Constitution—DEAR SIR: Governor Bullock in his recent letter to the Joint Select Committee at Washington, uses the following language in reference to the Alabama and Chattanooga Railroad: "The Alabama and Chattanooga Railroad, owing to its complications in connection with its larger debt in Alabama, has failed to meet its interest in January and July. The State, however, has promptly met its liability by paying the interest on the bonds indorsed by her, and I amply secured by the value of that portion of the road lying within the State, upon which her indorsement rests."

An act of the Legislature of Alabama, approved September 22, 1868, provides for the indorsement of the bonds of railroad companies who have finished twenty miles of road in said State, to the extent of twenty thousand dollars per mile. That act also provides that railroads owned by companies incorporated by the State of Alabama, and which have one or both termini in an adjoining State, but extending into that State, shall have a like indorsement for twenty miles outside of the State of Alabama, all of such indorsements to be a lien upon the *whole road*.

Two acts of the Legislature of that State, approved respectively October 8th and November 17, 1868, expressly extend the provisions of its state aid laws to the Alabama and Chattanooga Railroad, and increase the amount to sixteen thousand dollars per mile. Those acts again expressly providing that the bonds so indorsed shall be a lien upon the *whole road*, and one of those acts fixes the point at which the indorsement shall begin at Meridian, Mississippi.

Thus it will be seen that the Governor of Alabama, was authorized to indorse the bonds of the Company, at the rate named, for all portions of the road lying in the States of Alabama and Mississippi, and twenty miles of the thirty-one, lying in Georgia and Tennessee.

On the 19th day of December, 1868, the first mortgage deed was executed, and on the 22d day of the same month was recorded in the Clerk's office of the Superior Court of Dade county, thus creating a lien in favor of Alabama and the bond holders, for the amount of the bonds issued under it, indorsed and sold.

Ex-Governor Smith, of Alabama, has stated over his own signature, that these bonds were indorsed at least to the amount the Company was entitled to by law; and taking into consideration the interest now in default, it will be safe to say that this mortgage creates a lien on the whole road, for at least sixteen thousand dollars per mile.

On the same day, 19th December, 1868, the company executed a secured mortgage upon all the road built in order to be built in order to secure bonds to be issued at the rate of nine thousand dollars per mile, in order to raise money to discharge the pre-existing liabilities of the old Wills Valley and Northeast and Southwest Alabama Railroads, which had been consolidated into the Alabama and Chattanooga, and for other purposes, and this mortgage was also recorded in Dade county, on the 1st day of January, 1869. These last bonds were not indorsed by the State of Alabama, but of course *bona fide* holders of them acquired a lien under this mortgage.

On the 20th of March, 1869, the act of the Georgia Legislature granting aid at the rate of eight thousand dollars per mile was passed, and of course the Georgia indorsed bonds of the company were subsequently issued. Now, when we remember the fact that at the time of indorsement of these bonds by the Governor, all debts of the old roads had been paid, the road was and had been in process of rapid construction for several months, the large amounts of money actually paid out by the company, before and since that time, and add to this recent developments in regard to this road, and its management, it will be easy to see how "the State is amply secured" by the value of that portion of the road lying in the State upon which her indorsement rests.

Of course a question would arise as to how much of this twenty-five thousand dollars per mile of prior mortgage bonds, had been actually sold before the bonds were indorsed by Georgia, but the probabilities are, that holders will not be hard to find, and it will be very hard to prove that they are not *bona fide*.

These mortgages were actually on record at the time of the indorsement by the State of Georgia, and even notice to the world of the rights of the State of Alabama and of the holders of these bonds, and I fear that in the event it will appear that the principal portion of these bonds were issued and sold before Georgia had any lien, and if so, a road stripped of its rolling stock, as it could be in an hour, and extending only twenty-six miles through Georgia, would scarcely be worth thirty-three thousand dollars per mile, and the interest now constantly accumulating. D.

☞ The Danger of Drinking Whisky. Last week four men, who were harvesting for Mrs. Parsons, near Grubb's store, in Ashe county, N. C., were poisoned from drinking whisky. One of them died in a very short time after drinking, and the other three are not expected to live. It is supposed that the whisky contained strichnine; but whether it was put in by the manufacturer or some one else, is not known.

LETTER FROM NEW ZEALAND.

The Situation at Auckland—The Harbor—Waikato River—Frost—The Thames Gold Field—Navigation—The Market—Gas Works—Streets and Roads—The Stores—Plucky Conduct of the People.

[Special Correspondence to The Constitution.]

AUCKLAND, June 16, 1871.

Editor Constitution: I now intend to give you a short account of my voyage on board the "Nebraska," one of John Webb's steamers, and of my visit to New Zealand.

I left San Francisco on the 6th of May, and arrived at Honolulu, Sandwich Islands, on the 14th, leaving on the morning of the 15th for Auckland, at which port we arrived on the 31st of May.

The voyage can be best spoken of as a huge picnic, the weather throughout being fine and the trip all that could be desired by the most fastidious.

The accommodation on board these vessels (now carrying out a contract with the government of New Zealand) is of the best.

The situation of Auckland, the commercial capital of New Zealand (she owns more ship tonnage than the rest of New Zealand put together) is superb.

The harbor is very easily entered, even at night, is land locked, and has eight miles of anchorage for ships of the largest size.

The city contains a population of 20,000, and is very salubrious.

The suburbs contain, within a radius of 10 miles, no less than 60 extinct volcanos or vents, averaging from 100 to 900 feet elevation, and as a good deal of the land is well cultivated, a view from the top of Mount Eden, (which I had on a fine clear day) presents one of the prettiest panoramas of scenery and land that can be found on this fair earth of ours.

In fact, go where you will in and about Auckland, you cannot avoid a pretty peep or a fine view.

I visited the delta of the Waikato River, 100 miles inland, and saw some magnificent land, and although in the dead of winter (June) the cattle are rolling with fat—grass being their only food.

The cold weather experienced here is really nothing, a little frost (hoar frost) is all they get in the lowlands of the Waikato, and the farm which I visited was without any winter quarters of any description for stock.

In Auckland, even hoar frost for one morning is a rarity, and snow has never been seen.

My visit to the Thames gold field, 45 miles east of Auckland, was both interesting and novel. The rich deposits of the precious metal which have been discovered within the last four years, are found on the Thames river, just where it enters the sea at the head of the Hauraki Gulf.

The navigation from Auckland is for 22 miles of the distance between islands, and the main land, and is good; the gulf is then crossed.

The steamer called the Solderfrown,) having been built in this port for some shareholders in a mine of this name) did the distance in 2½ hours. She cost $90,000.

The gold is obtained from quartz reefs and veins, and an enormous amount of money has been spent on it up to the present time, mostly by Auckland citizens.

From the time when Hunt struck gold in a bed of rock forming a waterfall in the Kuramie creek, in August, 1867, the people of Auckland have worked and paid like heroes, and I think the results which I shall give of the work performed and the quantity of gold obtained, will satisfy you that they are not asleep in this part of the world.

The following dividends have been declared since the first of May:

Name of Company.	Dividend per Share.	Total Dividend.
Caledonian	$325 00	$672,100 00
Gold Crown	50 00	9,600 00
Long Drive	5 00	6,000 00
Dixon No. 1	2 00	4,800 00
Total		$693,500 00

The Caledonian Gold Mining Company, has divided amongst the fortunate shareholders in this mine since February last, the enormous sum of one million seven hundred and twenty five thousand dollars.

I visited this mine in company with the reporter of the Daily Southern Cross, his report of which, I forward by this mail, and can verify the truthfulness of it. Dividends, not prospects, rule the market here, and while this is so, the feeling must be healthy.

The market has shown very little comparative change in the matter of heavy stocks, which all close firmly with an upward tendency. The immense return of 25,000 ounces of gold, (or upwards of a ton) obtained from the Caledonian Mines in one fortnight, and that too a time when it was believed by many to show signs of exhaustion, has given a further proof of its extraordinary richness and unknown wealth. Since then the mine has continued to turn out stone of the same marvellous richness that has placed it foremost in the mining world as a gold product.

The crushings of quartz on this field from May 19th to June 14th has yielded 40,322 ounces 7 penny weights and 18 grains, and the yield, from the 1st to the 19th of May, is 21,853 ounces 12 penny weights, thus making the total yield, from the 1st of May to 14th of June, 62,175 ounces 19 penny weights and 18 grains, of which the approximate value taking the aggregate at 2,151 per ounce, is ($868,670) eight hundred and sixty-eight thousand six hundred and seventy dollars.

During my stay in Auckland I visited the gas works which are constructed on English models, and seem to contain the latest improvements. The consumption of gas is rapidly increasing, the policy of the Company being to reduce the price as often as possible. Last year the delivery was 10,000,000 cubic feet, distributed through 13 miles of mains in a town of only 20,000 inhabitants. The longest distance from the works at the present time being nearly two miles, and the Directors are contemplating an addition of three-quarters of a mile to this. The coals used are water-borne 1,200 miles, and cost $7 (seven dollars) per ton of 2,240 pounds.

The number of consumers is upwards of 600.

The streets and roads in and about the city reflect great credit on the people of so young and struggling community. There are more than 100 miles of good MacAdamized roads outside the city, one being over forty miles, reaching to the Waikato river, which is navigable for 100 miles into the interior, where there are thousands of acres of the finest land I have ever seen, where all that is necessary is to burn off the fern and put in the plough. I have traveled over all the principal streets and found them well formed and MacAdamized—the material used at first being Scoria ash or Volcanic cinders, from one of the mountains above referred to, a sample of which I shall show you on my return. It is found in all sizes from the size of a thirteen pound lump to the very finest gravel, the only cost being loading and hauling a distance of about two miles.

The stores of the city are large and fully supplied with large and well assorted stocks of every kind, and prices are very moderate, in fact living is very cheap compared with the States.

Beef, mutton, and Pork of first quality, equal to any market I ever saw in England or the United States, can be purchased at five to eight cents per pound.

I leave this port to-day by the Nebraska, which vessel arrived yesterday from Sydney. She left this place on the 1st of June, seventeen and a half hours after the Hero, a 700 ton steamer, one of the fastest in these waters, and cast anchor twelve and a half hours before the Hero, in Sydney harbor, a distance of only 1,300 miles.

The plucky conduct of the people and Government of New Zealand (the total population of the colony being only 250,000) in inaugurating an expensive mail service at an annual cost of $250,000, and that too quite unaided, in above all praise, and, notwithstanding all that has been said about the Government of the United States aiding this enterprise, I find the colony is bearing the whole expense.

I am, dear sir, yours truly, E. P.

Bald-Headed New York Editors.

The following curious lot of personality is from the Troy Budget: It is a curious fact that nearly all the leading editors of New York City are bald-headed. I have prepared the following statement, giving the name, paper and cause of baldness, with a great deal of care, and you can rely on its correctness:

James G. Bennett, Herald—Excessive worship of the Herald.

Horace Greeley, Tribune—Wearing his white hat too much.

Joe. Howard, Star—M. T. Jugg-ler.

Manton Marble, World—High toned Democracy.

Charles A. Dana, Sun—Intense rays of the Sun.

Brick Pomeroy, Democrat—Early piety and over-work.

Wm. C. Bryant, Post—Old Age.

Geo. W. Jones, Times—General aggravation.

Wm. C. Prime, Journal of Commerce—Too much gunny bags.

The other metropolitan editors, so far as I know, have hair on their heads where the wool ought to grow.

Valuable Invention.

A Birmingham, England, invention, consists of a machine designed to punch the holes through the webs of steel rails, near their extremities, which are required in "fishing" joints. Two holes are simultaneously punched, each being one inch by one and a quarter in dimension. The pressure is supplied by means of a hydraulic cylinder of fourteen inches diameter, and the water is supplied from an accumulator having a compressed air-chamber, in which the pressure is raised to three hundred atmospheres. The total pressure which the press is capable of exerting amounts therefore to nearly four hundred tons.

The upward stroke is effected by means of a smaller cylinder which is always in communication with the accumulator, so that the small piston always tends to lift the ram and punch. When a drawn stroke is to be made, the water is admitted to the main cylinder by opening a stop-valve, this valve being combined with a discharge-valve, which is open on the completion of the down-stroke, the ram being then raised by the action of the small piston, and the water in the main cylinder flowing off through the waste-pipe.

A NEW LINE OF OCEAN STEAMERS.—A new company has been formed in Bristol called the Great Western Steamship Line for the purpose of running a line of steamers between that port and New York. Morning Edition.

ATLANTA:

FRIDAY, JULY 28 1871

Subscribe to The Constitution.

Parties spending a part or the entire season at the various springs or at the summer resorts throughout the country, can have THE CONSTITUTION sent to them by addressing a line to the office.

A full report of the decisions of the Supreme Court is furnished to THE CONSTITUTION exclusively, by the Reporter of the Court.

☞ The letter of our special correspondent on the concluding exercises of Marietta Female College is unavoidably crowded out of this issue, but will appear this afternoon

Swinging Signs.

The Massachusetts Supreme Court has decided that swinging signs across the street are illegal.

Immigration.

One hundred thousand immigrants have landed at New York since the 1st of April of these 26,000 were Irish, and 30,000 Germans.

Hanging a Horse Thief.

The Gold Hill, Nevada, News, speaking of a country which is described as "out West," where local papers chronicle the hanging of a horse thief thus: "Mr. Jim Clementson, equine abductor, of Minnesota, was lately the victim of a neck-tie sociable.

San Domingo.

The above Island may have presented many attract ons to the eyes of General Grant, and his commissioners may have painted its beauties in glowing colors and have represented its charms as a terrestrial paradise, all at the expense of the government. Yet every exertion made has seduced no one to that favored Island.

Division of Texas.

By the terms of the treaty of the annexation of Texas, a division into several distinct States was provided for. The Legislature passed an act submitting the question to a vote, the question will be decided this fall The Republicans favor, and the Democrats oppose a division. The possibility of two more Senators rests upon a division.

General Grant.

The Iowa Tribune, the Dubuque Times, Der Demokrat, and other leading Radical papers in Iowa, take issue with General Grant upon San Domingo, revenue reform, civil service reform and other questions; and assert that they oppose Harlan's re-election, because he is in favor of Grant's re-nomination.

The truth is, Grant is an unpopular man West, East, North and South, and if he should succeed in procuring a re-nomination, his defeat is certain.

The Capital of Connecticut.

This State, at present, has two capitals, viz: Hartford and New Haven. The question is now to be decided which is to be the permanent one. Hartford is straining every nerve to be the only capital, and has a majority of the Legislature on its side. In the New Haven end of the State, there is a great and bitter feeling springing, and threats are made against Governor Jewell, and other Hartford politicians, who are urging the measure on.

General Butler.

The individual, whose name is above written, is making every exertion to secure the Republican nomination as candidate for the Governorship of Massachusetts. It is proper that his past acts should be known, and that the people should be informed what manner of man he is. The Boston Times expresses the hope that now as his name is fairly before the public, all the details of the diabolical scheme, that he hatched to starve his own mother, will be fully exposed.

Platforms.

Some of the Radical journals are crying out, Give us a platform, or give us death The Ohio State Journal, a Radical paper, commenting on the platform of its party in that State, says: "The Ohio Republican Platform no more commits the party to either a protective or strictly revenue tariff, than it does to the San Domingo policy, or against it." This is but a specimen of all their platforms, it is one intended to be a panacea for the ills of the party, and a sticking-plaster for keeping its leaders together.

Republic Life Insurance Company of Chicago.

This Company is rapidly ramifying the whole country with its branches. The New York office is flourishing. It is in the Ninth National Bank Building, 409 Broadway. Its officers are men of prominence, and know how to extend to a Southern man an entertaining and most cordial welcome. Vice-President, G. W. P. Brownson, can make a man feel easy by the time he is well seated, and Secretary H. Lessing is as polite as a gentleman ought to be. All of which, if you doubt, can be verified by a *dropping in* at 409 Broadway.

Usury.

The State of Connecticut has repealed her usury laws. Hereafter they are permitted in that State to loan money at whatever interest they can get. This we deem proper and right, for the price of money should be regulated like any other commodity—by the laws of trade, supply and demand. It is a question of political economy, and it is the province and duty of legislators to treat it as they would any other question involving the public weal.

We cannot see the justice or expediency of imposing pains and penalties upon those who prefer trading in money to dealing in other commodities—land, cotton, merchandise, etc Money, like other articles of traffic, should be placed under the great law of supply and demand. Regulate its value in this way and it will be more plentiful.

"And Yet I am Not Happy."

Doubtless the above expression falls from the lips of Charles Sumner, of Massachusetts. The Republic of Hayti has presented him with a gold medal for his opposition to the annexation of San Domingo. It is richly ornamented and exquisitely wrought, and bears on one side a complimentary inscription. The Legislature of Massachusetts has also voted a sufficient sum of money to purchase two full length portraits of Mr. Sumner which will occupy conspicuous places in the hall of the Senate and Chamber of Deputies of that State. Knowing his life-long hatred and persecution of one section of his country, and recollecting some past scenes in his life; doubtless even though his own State honors him, thoughts will well up in his mind, and the expression will escape his lips, of "And yet I am not happy."

The Fourth of July.

One or two Northern exchanges discussing the idea of celebrating the above day here, say: It is doubtful if the ignoring of the Fourth at the South has been wise. It had its origin in a cause which for purity of principle, strength of devotion, and fearless and unconquerable courage, has been seen but once since on this continent. When a Prince, whose character marked by every act which defines a tyrant, was no longer deemed fit to be the ruler of a free people," was deprived of that power by a little but sacred band, who "pledged their lives" to bid defiance to all foreign sway, who raised the banner of independence when not one star of hope illumed the horizon, and were true to themselves and their cause until the sun of freedom blazed over their land. The result was a triumph over tyranny; the cause was sacred; and why fail to rejoice at the anniversary of our independence? Should Washington, and Greene, and the long list of patriots be forgot, or even the disguised Ku-Klux of the war, who in Boston harbor went on the ships and threw the tea overboard? These men severed the chains of tyranny. Their good deeds should live after them, and their memories should be unforgotten.

The celebration of the birthday of our freedom and the government as managed in its purer and earlier days, should find no objection among us.

Torch Light.

A day or two since the Republican party of Charleston held a caucus with doors barred and bolted and windows fastened. One thing is decided upon, namely, a torch-light procession in that city to-night. One thing is evident, and that is, Radicalism is decidedly on the decline all over the country, hence, torch-light processions and other expedients are to be resorted to, to try and keep it up.

And why should the party live any longer? Economy was one of its pretended principles, yet it expends wastefully and corruptly double the money necessary for the management of the government. National tranquility was promised, and yet Radicalism has kept the country in a perpetual uproar. It asserted that all men are free and equal, and yet it has exerted itself to prevent men from becoming free and equal. Radicalism carried many upon a high mount and offered them all the cities of the world, if they but worship it, and those who have been silly enough to yield, have been cheated out of the promised reward. Why should any one, either white or colored, trust them any longer?

Rev. B. M. Palmer.

This gentleman, who is the pastor of the First Presbyterian Church in New Orleans, is well known to a large number of the readers of THE CONSTITUTION, who will be gratified to see that he is appreciated by his congregation. The generous action of his church commends itself strongly to our admiration. The New Orleans Times says:

The First Presbyterian Church, New Orleans, have tender d their pastor, Rev. B M Palmer, D. D., a noble testimonial of their grateful appreciation of his services. At a late meeting of the church and congregation, a series of resolutions was adopted testifying to the earnest faithfulness and devoted labors of their pastor, and tendering to him a vacation of four months for recreation and rest The sum of $3 000 was raised by the members and congregation, and placed at his disposal. After some hesitancy, Dr. Palmer, accepted the offered vacation and the generous gift.

New York, July 24, 1871.

Quite a number of Atlantians have appeared upon the streets of Gotham within a few days past. Maj. Wight is in business here. M. C. Blanchard, W. S. Hancock, Judge Pope, Louis, Scofield, Jr., and others, have tarried briefly, among them his much-disposed-to-be-Dumo ratic Excellency, Governor Bullock. A casual introduction to him at the Fifth Avenue enabled me to suggest the matter of his recent conversion to Democratic faith. "Oh, no," he replied, "the Democracy are progressing to my doctrines," or about that in substance. A "reconstruction," Radical Governor folding about him a Jeffersonian robe is a novel spectacle, and one that would seem to be very significant. "There are other Radicals in this country becoming quite Jeffersonian, either through sincere repentance or the influence of the darkening political prospects of the Republican party.

A MINIATURE WORLD.

Conversing on Broadway with one of these Gate City denizens in answer to a question regarding his projected movements, he said to me that he intended to do considerable traveling, but he had nearly concluded that it was needless, for he could see "everything" in New York. He is right. New York is the world in miniature. To the close observer objects of interest and study are constantly appearing and grow upon the attention. Genius, learning, enterprise, science, and art are here experiencing tremendous development and accomplishing the most brilliant achievments; while humbuggery has attained almost to perfection. Here, too, are presented in their most glaring contrasts

THE EXTREMES OF HUMAN LIFE.

The purest religion, working gloriously the mission of christian love and mercy, and sending through countless channels rich, golden floods of Heaven-born charities, is confronted by the most godless infidelity and most unfeeling inhumanity; here asylums and gorgeous temples of worship, there frowning prisons, the vile brothel and the gilded haunt of infamy. Virtue assumes the noblest and most beautiful proportions, and vice riots in its ghastliest manifestations. Fabulous wealth brushes its robes against the rags of abject poverty. Here meets you a man, whose countenance beams with the genial light of a good and noble nature; a step farther, and want in its gauntest form, with sharp, angular features and despairing look, appeals to pity in hollow accents; and yet another step, and you catch the gleam of a face so marred and marked by passion, debauchery and crime as to cause you to shrink and shudder. Nowhere else have I been so deeply impressed with the truism, that life and character surely work their impress upon the human face. I am hourly passed by beings, who in human bodies were faces of devils, according to our conception of such

Yea, in New York "*everything* can be seen," and it should be the *first* destination of every one starting upon a tour of travel.

A SHOCKING SPECTACLE.

But among the revolting "day scenes" and "night scenes" of this city, there is one of which I have frequently read, but never till now witnessed. I have often seen beautiful and cultured ladies, whose eyes sparkled and whose cheeks glowed with a brilliancy born of the wine-cup; but never until yesterday saw I the spectacle of a woman, handsomely dressed and otherwise of apparent respectability, staggering upon the street in a state of

BEASTLY INTOXICATION.

A crowd soon gathered about her. It was evident that she could walk but little farther, and presently she measured her length upon the pavement. Two po icemen soon arrived upon the scene and conveyed her away. She may have been one of the

STRONG-MINDED WOMEN,

who are now striving to make a great stir in this city and about the country, touching their pernicious doctrines of free love, spiritual affinities, and woman's rights generally—to vote, swear, chew tobacco, get drunk, wear the breeches, and in short, "do everything that a man does." The country is heartily sick and disgusted with Susan Anthony, the Woodhulls, Claflins, *et id omne genus*. Their doctrines lead inevitably to the degradation of the sex, and to their efforts will be traced at the great day of accounts the cause of many a woman's suffering and sin. The troops of abandoned girls now parading the streets of our great city, and openly flaunting their shame are alone sufficient incentive to the press and noble womankind to discourage and denounce these unsexed females, whose principles tend to divest woman of her modesty and purity, remove her from her true and normal sphere, destroy the family institution, and swell the catalogue of "free love ism." But we will leave the strong-minded woman and turn to the apparently

INSANE.

You have had full particulars of Mrs. Wharton's case, of Baltimore. She is supposed to have poisoned husband and son, besides others. The women seem determined to monopolize public attention as well as private. The Fair tragedy is yet under discussion, when Mrs. Wharton draws the eyes of the whole country. If she is guilty, she can scarcely be termed a Lucretia Borgia, as circumstances seem to indicate insanity. She doubtless acted under the influence of homicidal mania, which is produced by a nervous disease familiar to physicians. One of her strange antics, when a girl, was to appoint the day of her marriage, send out the cards, etc. The rich old father made the most magnificent arrangements for the occasion, to which, however, only the invited guests came. The groom respectfully declined, as he had not been at all consulted in the matter. What a pity it is, that some pretty girls in Atlanta could not become similarly "insane," and make a wholesale appropriation of some old bachelor reprobates thereabout. I know several (modest, timid fellows) who, though too bashful to propose, would not be "insane" enough to decline.

SEEING THE ELEPHANT.

New York is beginning to suffer for a new sensation. Though certain to occur in a short time, there is no telling what will be next. A rather novel disembarkation transpired a few days since in the shape of ten large elephants, that were lifted from the hold of the vessel by the same process by which huge blocks of stone are now hoisted to the top of your Catholic Church. The monster elephant of the lot, when high in mid-air, became fearfully enraged, furiously plowing the ether with his legs, and striking right and left with his trunk. But this proved a sensation only to the assembled crowd, that scampered pell-mell in every direction, when his elephantine highness struck terra firma and made a struggle for freedom. I perceive that you have something of Atlanta notion in the fact that the census shows Atlanta to be

THE LARGEST CITY IN GEORGIA.

Such rapidity of growth is almost unprecedented. It will be the work of but few years to increase the population of Atlanta to fifty thousand. There is no Southern city more popular with the Northern people or better known to them. Hence, Northern men are seeking it for investment and homes.

Georgia State Agricultural Society—Secretary's Bulletin.

SECRETARY'S OFFICE,
MACON, GA., July 17, 1871.

THE WEEKLY PRESS.—The thanks of the State Agricultural Society are tendered to the various weekly newspapers which have from time to time given publicity to important notices from this office—and, indeed, have never failed to comply with the Secretary's request in this respect. The services of the office has by these favors been incalculably aided in its efficiency. It is hoped by these means that the office is enabled to hold effect and frequent communication with the indi-

The Secretary, relying upon the past liberality of these papers, with confidence requests that they publish full the following card:

ACKNOWLEDGMENTS.—Acknowledgments are due to members of Congress from Georgia for valuable contributions of books, documents, and reports to the Library of the Society.

The thanks of the Society are tendered Mr. Edward N. Dickerson, Recording Secretary, and Samuel D. Tillman, Corresponding Secretary of the American Institute, New York, for copies of the transactions from 1866 to 1870; and also to Col. W. J. Lawton, at whose solicitation they were presented to the Society; also to Governor Geary, of Pennsylvania, for valuable documents and reports connected with Agricultural education in Pennsylvania.

The thanks of the Society are also tendered to Mr. E. E. Brown, of Brown's Hotel, for a photograph of Governor Troup, and for the autograph of Greene, Hancock, Washington, Madison, and other revolutionary worthies. To Honorable Thomas Stocks, Major Mark A. Cooper, Dr. A. Means, and Colonel John S. Thomas, for their own photographs, and to Mrs. Collins, for one of the late Dr. Robert Collins. These were presented to the Society at the request of the Secretary, who is endeavoring to collect in a group the likenesses of retired or deceased officers and members of the Executive Committee, especially of those who, like the above named, were among the early founders and friends of the Society.

The relatives of deceased members to whom this may be sent are requested to send the pictures of those members.

To Colonel Robert Bonner, a native of Hancock county, and at this time in business with Howes, Hyatt & Co., wholesale shoe dealers, Grand street, New York, acknowledgments are due for the presentation to the Library of a map of the State of Georgia, published by Eleazar Early, in the year 1818. The map is in a perfect condition as if published but a year ago. On it are delineated thirty-seven counties, and by the side of Buttes new map of Georgia, with its one hundred and thirty-seven counties, hung on the wall of this office, it presents at a glance a view of the progress of the State, most suggestive of the changes and events of fifty-two years.

To Messrs. Pelligrini & Giorgi, Terra Cotta Works, Atlanta, for a beautiful flower vase made at their factory, near Atlanta, and also for basin for fountain in the office, and fitting up the same.

To Messrs. I. R. & A. G. Butts, for a new improved map of Georgia.

To Governor Bullock, for repeated attentions in the donation of documents, and in repairing, refitting and decorating the Agricultural office.

☞To Mr. P. J. Berckman, of Augusta, for most beautiful specimens of plants, whose beauty consist in the color and variegation of the leaf. Among these are specimens of the Coleus, Achyranthus and Caladium.

To Colonel Richard Peters, of Atlanta, for package of New Zealand flax seed, for distribution, accompanied by a description of mode of planting, culture, etc.

EXPRESS COMPANY AND PACKAGES.—The Southern Express Company has generously offered to carry all packages from this office on the business of the Society, without charge. For this service, which saves the expenditure of several hundred dollars in the year, they are entitled to the special thanks of the officers of the State Agricultural Society, and of all officers and members of county societies. By this favor we are now sending, without cost, large packages of premium lists to the Secretaries of county societies, containing a copy addressed to each member of every county society which has reported a list of its members to this office. They will please call on the Secretary for their copies

PROCEEDINGS AND PREMIUM LIST.—Copies of the proceedings of the February Convention, and the Premium List, have been sent to members of the Convention. Copies will be promptly mailed to persons making application by letter or otherwise.

AGRICULTURAL REPORT FOR 1868.—In a few days copies of the Agricultural Report for 1868 will be sent to those county societies immediately on the line of the express. Those county societies not on express lines, but accessible thereto, will please report to this office immediately to what stations or depots on express lines packages may be sent so as most certainly to reach them.

COUNTY SOCIETIES—LIST OF MEMBERS. County societies which have not reported the list of their members should do so at once, that they may participate in the distribution of documents, papers from this office, etc. Copies of the premium list and other documents will be forwarded on receipt of the list.

COUNTIES HAVING NO SOCIETIES.—In counties which have no agricultural societies, copies of this list have been sent to the Clerks of the Superior Court and to the Ordinaries. At these offices they may be found for examination by the enterprising citizens, who may, it is to be hoped, be found now and then, though friendless and alone in his aspirations for improvement, scattered and isolated here and there in unaffiliated, unaroused, indifferent, no-agricultural-society counties. All such citizens who may be discovered by this circular and brought to light, so far as to report their names to this office, will be kindly remembered by the Secretary, in their misfortunes and afflictions, when he comes to distribute his favors, documents, etc.

All county societies are urgently requested to report, at once, to this office the times of their monthly meetings, and a list of their members. This information is necessary to the efficient wording of this office and very valuable in its result to them.

THE AUGUST CONVENTION AT ROME.

The city of Rome has arranged to extend to the delegates of the convention the hospitalities of the citizens, Major John T. Burns, C. W. Sproull, M. Dwinnell, Esq., W. H. Jones, Esq., Judge Thomas J. Perry, and Major B. F. Jones are the Committee of Arrangements and Reception for the city. The members of the convention, conveyed in a body by a special train of the Western and Atlantic Railroad, on Tuesday morning, August 8, will be met at the depot and escorted by the committee to the Hall of the Floyd County Agricultural Society, and there assigned lodgings and introduced to their hosts respectively. For this and other important reasons, it is desirable that all delegates should be in Atlanta ready to take this special train.

Delegates who may reach Atlanta Monday afternoon, will find the office of the State Agricultural Society open until 11 o'clock, p. m. An informal session of the members there at 7 to 11 o'clock on Monday night, will be a pleasant reunion of friends, and may do much good, by means of conversational discussion, towards developing the thoughts and conclusions connected with the subjects which will come before the convention

SUGGESTIONS FOR THE REPORTS OF COUNTY DELEGATIONS.—Delegations are requested to agree upon a written report, in which they will give as full and accurate an account as practicable of the agricultural condition of their counties. Information upon the following points is desirable: The quantity of land cultivated in the crops of the county, cotton, corn, grain, roots, etc., compared with last year; the comparative quantities of fertilizers used this year and last, and the difference in their cost; what proportion of the farmers of the county came through last year's operations without loss; what proportion came through with satisfactory profits; what proportion were compelled by losses to entirely suspend operations; was there more or less land sold in your county during the last winter and spring, than in the winter and spring of 1870? What is the price of land? What proportion of land is cultivated and dressed by home-made fertilizers? Is there any increased attention to the preserving and making of fertilizers from home material, and how is it usually done? Which of the small grain crops give the largest yield in your county, and what the difference in acreage of small grain this year and last?

Any special attention to stock raising? What kind of stock? What are the local or other advantages for raising that kind of stock? What the difficulties? Any epidemic among stock? What is the disease and remedies use? What per cent. of farm stock or working stock is lost from all causes? What per cent by disease and ill treatment? What direction is given to the selection of seeds? What seeds are brought from other sections and higher latitudes? Any seeds from lower latitudes?

What staples or commodities does your county produce for sale? What in the largest quantity? What next? What next? etc.

Any investments in lands by Northerners or foreigners? To what extent? How much produced usually by one individual? In what department of farming or planting do these stangers engage?

Any organization for immigration? To what extent? On what plan? What class of immigrants sought? Laborers, mechanics, house servants or others? From what nation do they propose to import? Have any been imported? How many? Are the results satisfactory? If not, what causes or difficulties present themselves?

A LEAF FROM THE JOURNAL OF AN AFRICAN MISSIONARY.—One day a trader chief came to join my church with his two wives—one old and ugly, the other a handsome young negress.

"That will never do," I cried; "my religion allows a man but one wife. Choose one for the partner of your joys and sorrows, and make suitable provision for the other."

They all went away, looking very crestfallen. A week or two afterward the old chief came back, leading the young and pretty one, both looking very happy.

"He come back," he said, "me all ready now."

"That is right," said I; "and, pray, how have you disposed of the other wife?"

"All right," he said; "me cut her up!"

ASSOCIATED PRESS DISPATCHES.

WASHINGTON.

WASHINGTON, July 27.—General Gordon was examined, and his testimony generally corroborates that of other conservative witnesses. He knew of no Ku-Klux as described in the papers. He had been invited by the best people to join an organization, the object of which was purely self-protective. No disguises under the lead of bad whites. Bloody negroes were apprehended which, without some organization on the part of the whites, might be disastrous. The organization alluded to was not political, and was never used for political purposes. The negroes did not essentially sympathise with the Republican party. They had equal interest with the whites in good government, and alienation on the part of the South against the government had been increased since war by Radical measures which they regarded as great wrongs, as well as by military arrests without warrants or charges, and trial and imprisonment of innocent men. He did not feel that he or any of the Southern people had committed treason.

I Kimball House and at the residence of Colonel J. M. Clarke, on McDonough street.

The National Hotel having been thoroughly repaired and refurnished, will be opened to the traveling public by M. S ubblefield on the first of August.

The tenth annual session of the Southern Female College, at LaGrange, will open in the new college building on the last Wednesday in August, with a corps of eight first-class teachers.

An elegant residence lot containing thirteen acres with a three-room house and servant's house, situated in the village of Edgewood, on the Georgia Railroad, 2½ miles from Atlanta, is offered for sale by Wallace & Fowler.

The 26th academic year of the Kentucky Military Institute, situated six miles from Frankfort, Ky., will begin on the 4th day of September next. This school combines the discipline of the camp with the pleasures and comforts of home life.

Thomas L. Wilcox applies to Judge Webster, Ordinary of DeKalb county, for exemption of homestead and setting apart of personalty.

Henry H Stowers applies to Judge Webster, Ordinary of DeKalb county, for exemption of homestead and setting apart of personalty.

Nathan Russell applies to Judge Webster, Ordinary of DeKalb county, for letters of administration on the estate of Virginia Akin, deceased.

J. W. Jones, administrator on the estate of Z. H. Jones, applies to Judge Webster, Ordinary of DeKalb county, for leave to sell the real estate of said deceased, for the purpose of division.

LEMONA.—Stokes & Brother have just received thirty thousand lemons. Those fond of acids will do well to make a note of it.

BROOM FACTORY.—Robson's Broom Factory has been removed to the room, upstairs, over Anderson & Wells' Agricultural Rooms, on Alabama street.

READINGS FROM DICKENS.—At DeGive's Opera House to-night, by Mr. Alexander M. Clair Abrams. Those who have heard him speak well of his ability.

BRANCHING OUT.—Messrs. Brumby & McPherson will establish in a few days a branch house in the store on Peachtree street recently occupied by James Terhune.

FINE TOMATO.—A tomato has been laid on our table, weighing one and a quarter pounds, produced by Mr. John H. Gaches of this city. This is ahead of the Rice-Hill tomato.

GEORGIA WESTERN RAILROAD.—Major Campbell Wallace, President of the Georgia Western Railroad arrived yesterday afternoon. The Board of Directors meet at James' Bank at 8 o'clock this morning.

LIFE OF LUTHER.—Charles W. Hubner, Esq., has completed, we learn, his "Life of Martin Luther," which will soon be issued from the press. We trust it will meet with a wide circulation.

REVIVAL.—A revival is progressing at the Third Baptist Church in this city, and considerable interest is manifested. Rev. H. F. Buchanan, Rev. D. W. Warren and other divines are assisting in the work.

FROZEN FLOWER.—Mr. C. Herbst exhibited to us yesterday, a block of ice made yesterday at Iceville, containing a beautiful flower, frozen in the center. Although the clock of ice was exposed to the air for six hours, it melted but little.

SHALL ATLANTA HAVE A FAIR THIS FALL?—We trust that our City Fathers will settle the question to-night in the affirmative, so far as they are concerned. Too much has been spent on the Fair Grounds to let them remain idle, and it is highly important that Atlanta should have a fair this fall.

ATLANTA POMOLOGICAL SOCIETY.—This Society meets at Wallace & Fowler's office to-morrow morning at 10 o'clock. At the last meeting, Col Richard Peters read a letter from Charles Downing, asking for specimens of yellow or white apple, and Rhode's orange.

DEATH OF JAMES E. LYNAM.—Intelligence was received in this city yesterday of the death, in New Orleans on the 20th, of congestion of the lungs, of James E. Lynam, who was formerly a resident of this city, and is a brother-in-law of the local editor of this paper. He leaves a wife and one child.

TO BE REOPENED.—The National Hotel has been refitted and refurnished throughout by M. Stubblefield, late of the Stubblefield House. The National will be opened to the traveling public on the 1st of August. "Mine host" Stubblefield knows how to cater for the wants of the public, and deserves success.

PAYNE'S PARLOR SLEEPING CARS.—We learn from A. C. Ladd, Local Agent of the Coast Line that Payne's Parlor Sleeping cars will be run on the Coast Line, between Atlanta and Branchville, S. C., on and after August 1st. The first car will leave on the first day of August at 2:15 o'clock P. M. This is said to be a route noted for smooth roads, comfortable accommodations and polite conductors.

PLEASANT SUBURBAN RESIDENCE.—Wallace & Fowler offer for sale a pleasant suburban residence in the village of Edgewood, lying between the Georgia Railroad and the turnpike road, 2½ miles from the city. There are thirteen acres in the lot, ten of which are enclosed with a good plank fence. There is a three-room house and a servant's house on the premises. It is situated in a healthy and pleasant neighborhood.

PICNIC TO ICEVILLE.—A picnic party, of about forty and fifty ladies and gentlemen, went to Iceville, on the Chattahoochee river yesterday. To say that they enjoyed the cool breezes, the pleasant ladies, the sumptuous dinner, and the "feast of reason and flow of soul," but half expresses the truth. The party returned last evening, charmed, delighted, attuned and nappy with the pleasant memories and bright experiences of the day.

KENTUCKY MILITARY INSTITUTE.—We call attention to the advertisement of this institution. The present sixth academic year will begin on the 4th of September next. The Faculty is composed of six officer men in every department, and the course of study such as to thoroughly fit those who take it for early calling in life. It is located six miles from Frankfort, Kentucky, in a quiet, healthy country. The students all board at the barracks, and are kept under good military discipline.

SOUTHERN FEMALE COLLEGE.—We invite attention to the advertisement of this institution in another column. The southern Female College was chartered about thirty years ago. Since that time six hundred and thirty young ladies have received diplomas of graduation. In 1863 the College was destroyed by fire. Since that time Mr Cox has prosecuted the organization of the College, and, notwithstanding difficulties almost insuperable, it has grown in public favor till now it enjoys a degree of popularity rarely equaled in this country.

J. W. FISKE.—Not Colonel Jim Fisk, Jr.—by any means, but the celebrated manufacturing ornamental iron work, fountains, statuary, etc., of Chambers street, New York. This gentleman is an old friend already known to his business which ramifies the whole country, knowing "no North, South, East or West," but largely supplying all with as fine work in cast iron line as comes from any quarter. Atlanta is a tribute to his energy, skill and taste, and we cheerfully commend him to all our readers, as a gentleman worthy of their patronage and confidence. See advertisement.

PERSONAL.—Rev. H. H. Tucker, DD. is in the city.

Col. Hood, Esq., left last night for Omaha and the far West.

Colonel E. Parsons returned yesterday morning from Australia. We are pleased to greet the Colonel again, and to see him looking so well.

Rumors are current in the city that Colonel Robert Toombs, of Elberton, will be pressed by his friends as a candidate for Governor at the next election.

GOV. MADISON TAKES A "NEW DEPARTURE."—Two members of the State City recently made a visit to Texas. In the course of their travels, a story goes, they stopped at the town of Marshall. Their arrival from Georgia was duly noted by the town, and they were eagerly sought by many who desired to find out something concerning affairs in this State. Some of the leading politicians asked if they knew Major Mad son, a member of Congress, who made such a gallant stand against secession in Georgia. They didn't recognize him even under that guise. Shortly afterwards they met in the streets by Platt Madison, who seemed to see them. He inquired, "Has Bullock left the State?" "Yes," they replied. "Has Brown?" "Yes." "When did you leave?" "Oh, some time ago." Striking for the Democracy now." Everybody is passing off for a second Demosthenes, and is considered a democratic orator of distinction. That night yet to hear the Governor, Colonel Madison, if we mistake not, performed Platt for some private friends he was charged.

Hawkins & Burke, N. A. Smith, for plaintiff in error.

T. Goode, Phil. Cook for defendants.

Pending argument of this cause, Court adjourned till 10 o'clock A. M., to-morrow.

NEW TRIAL GRANTED.—Judge Hopkins yesterday, at Chambers, heard argument for a new trial in the case of John Doe, ex-dem Martin J. Hirsch et al., vs. Richard Doe, casual ejectio, and W. Solomon et al., tenant in possession. The action was for ejectment, and a verdict was rendered for the plaintiff at the last term of Fulton Superior Court. The plaintiff was represented by George N. Thomas, and the defendant by Hill & Candler. Judge Hopkins granted the motion for a new trial.

HEALTH! BEAUTY!!
Strong and Pure Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion Secured to all
Dr. Radway's
Sarsaparillian Resolvent
Has made the most astonishing Cures; so quick, so rapid are the changes the Body undergoes, under the influence of this Truly Wonderful Medicine, that
EVERY DAY AN INCREASE IN FLESH AND WEIGHT IS SEEN AND FELT.
THE GREAT BLOOD PURIFIER.
Every drop of the SARSAPARILLIAN RESOLVENT communicates through the blood, nerves, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears and the worst forms of Skin diseases, Tetter, Salt Rheum, Fevers, Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all Weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent powers to cure them.
If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in a resting those wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will surely do—a cure is certain; for when once this remedy commences its work of purification, and ceases to diminishing the loss of wastes, it repairs will be rapid, and every day the patient will feel himself growing fonder and stronger, the food digesting better, appetite improving, and flesh and weight increasing.
Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for
Kidney and Bladder Complaints
Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or thread-like white silk, or there is a morbid, dark, bilious appearance, and white Sediment deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back and along the Loins
Price $1 Per Bottle.

TARRANT'S SELTZER APERIENT.
REBELLIOUS STOMACH.—The Stomach, like too politic, resents ill-treatment by rebellion. And when it rebels, the liver, the bowels, the nerves, the circulation, the brain, the blood, and the whole system is simultaneously agitated. Purify and regulate the deranged digestive organs first, and all else will follow. A deperative will spur this mane. The tonic, alterative, corrective and purifying properties of
TARRANT'S SELTZER APERIENT,
render it an irresistable remedy in cases of indigestion and its concomitants. Although it is a powerful, yet a harmless operation is so mild and genial, that it never produces the slightest symptom of debility.

For The Constitution.

I love her gentle gushing rills,
The beauty of her tempied hills;
Her vallies and her flowery dells,
And water from her pebbled wells,

I love her skies of gorgeous light,
When fi ecy clouds are lingering bright,
Round the golden battery of the west,
And glory crowns her starry crest.

I love her glittering resume shore,
The silent vigils of eternal love;
Where those whose glory reigns on high—
Jehovah's dwelling place is nigh.

I love her gentle voice of prayer,
When matin songs are lingering there;
And Na ure pours her sweetest lays,
In songs of gratitude and praise.

'Tis not her beds of golden ore,
Makes me love her more and more;
Nor gems and pearls of costly hue,
Rare diamonds sparkling in the dew:

Put 'tis the simple beauty of the mind,
Breath d in accents soft and kind,
Found in that nobler, better part,
The welco-ne of an honest heart.

Horrible case of hydrophobia in Hudson City.

Some three weeks ago Mr. Richard M. Nulty, a resident of Hudson city, and employed in the car-shop of the Morris and Essex depot, Newark, was bitten by a dog. At the time no attention was paid to the wound, and it was not until last Saturday that it assumed anything of an alarming character. On Sunday Mr. McNulty and his child, a little girl, were out walking. While out he drank a glass of lemonade, which occasioned such unpleasant sensations that he called upon a doctor, who told him that he displayed unmistakable symptoms of hydrophobia. Mr. McNulty then returned home and soon after, upon attempting to swallow some water, was seized with a violent paroxysms, causing him to dash himself about the room, at the same time snapping his teeth and cried out "Dog! dog! dog!" From this time on his condition continued to grow worse, requiring the constant attention of several strong men to keep him lashed to the bed. He was not expected to live through Tuesday night, but yesterday morning was still writhing in a fearful agony. The family of the unfortunate man consist of a wife and one child. He is about twenty-eight years of age and is a son-in-law of Mr. James Wright, who resides at 143 Franklin street, Elizabeth. The wound was inflicted on the paw of the liget mans by a Newfoundland pup belonging to a gentleman living on the Hudson City Heights. Although highly prized by its owner, the dog was killed immediately after the occurrence. McNulty is a member of the American Mechanics Association of Hoboken.

OUR FLOUR TRADE WITH BRAZIL.—Before the war our direct trade with the port of Brazil, constituted an immense source of our commercial wealth. We sent our flour there, and received in return coffee, which was distributed by Northern and Southern merchants throughout the country. For a while after the war this trade seemed to have left us, but the more sagacious of our business men said it was bound to return, because no flour in the world could compete successfully with ours in the Brazilian market. Their predictions were correct, and to-day the indications are that our trade with South America, will in time become greater than before the war.

We append a report of the number of barrels of flour shipped to Brazilian ports from July, 1870, to July 1st, 1871:

1870.	
July	3 473 barrels
August	5 301⅔ "
September	1 700 "
October	9 050 "
November	7 750 "
December	3 867 "
1871.	
January	11,599⅔ "
February	2 [illegible] "
March	4,266 "
April	5 [illegible] "
May	9 350 "
Total	60 [illegible]⅔ "

The Confederate Bondholders.

We copy the following from the Manchester, England, Guardian of the 3d:

One consequence of the treaty of Washington has been to revive the almost extinct hopes of the Confederate cotton bondholders in the ultimate success of their claims against the United States. They had a meeting in London yesterday "to consider the course that should be adopted." If there was one document that most people believed to be of equal value with a Confederate "shinplaster," it is a Confederate cotton bond; but the bondholders refuse to believe in the hopelessness of their case.

Successive governments have been memorialized by them with a view of securing from the Washington Administration a "calm consideration" of their claims, which rest, they allege, on moral equity and international law. The bondholders believe that one of the articles of the treaty, which provides for the reference to a mixed commission of the British subject "arising out of the war," exactly meets their case, and they have been vigorously informed that it will be "quite open" to them to lay their claims before that tribunal, if it should meet.

FATAL RAILROAD ACCIDENTS.—As the night train was going out for Columbus on Monday night last, it ran over a white man lying across the track near this city and cut him nearly in two at the waist. From a peculiar gash in the forehead, it is thought by some that the man was murdered and laid across the track to create the impression that he was accidently killed by a train of cars. The body was brought to this city and an inquest held over it at the passenger depot yesterday. The name of the man is not known. He was illy clad and evidently some humble laborer.

We also learn that a negro man was killed by a train on the Macon and Brunswick road on Monday, but we could get no particulars of the accident.—*Telegraph and Messenger.*

TWO-HANDED EUCHRE IN CHURCH.—On Saturday evening, a sensation was created in the Presbyterian Church at Springfield, Long Island. Two young men sat in a pew with a young lady between them. Their conduct attracted such marked attention as to disturb the preacher, who was preaching on the casting out of devils. The sexton advanced to the seat and discovered that the young lady had her dress drawn down tightly across her knees, and on it the young men were having an enjoyable game of euchre. They were forced to make a quick exit. The indignation of the people is aroused, and there is talk of having them arrested.—*N. Y. Standard.*

UNSATISFACTORY.—"Are you an Odd Fellow?"

"No, sir; I've been married for a week."

"I mean do you belong to the Order of Odd Fellows?"

"No, no; I belong to the order of married men."

"Mercy, how dumb! Are you a Mason?"

"No; "I'm a carpenter by trade."

"Worse and worse! Are you a Son of Temperance?"

"Bother you, no! I'm a son of Mr. John Gosling."

The querist went away.

☞ "Grace Greenwood," writing for the New York Times about the examination of candidates for clerkships at the Internal Revenue Department, says:

"I have heard some amusing little anecdotes of the male clerks. One young gentleman, being asked, 'What is the plural of it?' replied 'its.' Another to the question 'Where do the Northern lakes empty themselves?' answered, 'into the Gulf of Mexico!' Yet another, to the question, 'In what direction is the North Pole from London?' answered, 'Northwest.' Two college graduates failed to pass just before the successful examination of the ladies."

JAIL DELIVERY.—James Oxford, who was found guilty of murder, at the late session of Washington Superior Court, and sentenced to be hung in September next, was brought to this city for safe-keeping, last week. On Saturday night, about midnight a party of disguised men, variously estimated as from 25 to 80, visited the jail, demanded the key from the Sheriff and released the prisoner. The party were on horseback, armed, it is supposed, from a neighboring cotton. Our citizens were genera ly asleep and know nothing of the matter until next morning.—*Journal Union.*

Read! Read! Read!!! Health, beauty and happiness restored to modern womanhood, by using Dr. J. Bradfield's Female Regulator or Woman's Best Friend.

☞ Sold by every Druggist in Charlotte, N. C., and by Druggists generally. ☜

We were kindly furnished the following extract from a letter to Dr. F. Scarr, Druggist, of this city:

STANLEY COUNTY, N. C.

Dr. F. Scarr—DEAR SIR: When in your town I asked you for something for my wife. You sold me a bottle of Dr. J. Bradfield's Female Regulator, or Woman's Best Friend. Please put me up one dozen bottles of the same, as the one I got from you has got my wife finely well. You would not know her now; she has got stout and healthy and as red as a rose. As others are needing it please send me one dozen bottles. ***

CHARLOTTE, N. C., March 23, 1871.

Dr. J. H. Bradfield—DEAR SIR: We cheerfully bear testimony to the efficacy and popularity of Dr. J. Bradfield's Female Regulator. Among a number of cases it has benefitted in this community, we mention that of a married lady. She was a sufferer from womb disease; had excessive and disagreeable flow of whites; was weak and languid. She was induced to try the Regulator, and after taking the second bottle she is sound and well. Her health and elasticity of spirits have returned, and she has gained many pounds in weight; feels altogether like a new being. Yours very respectfully,

SIMMONS' LIVER REGULATOR

LIVER DISEASE and Indigestion prevail to a greater extent than probably any other malady, and relief is always anxiously sought after. If the Liver be Regulated in its action, health is almost invariably secured. In digestion, or want of action in the Liver, causes Headache, Constipation, Jaundice, Pain in the Shoulders, Cough, Dizziness, Sour Stomach, bad taste in the mouth, Bilious attacks, palpitation of the heart, depression of spirits, or the blues, and a hundred other symptoms, SIMMONS' LIVER REGULATOR is the best remedy that has ever been discovered for these ailments. It acts mildly, effectually, and being a vegetable compound, can do no injury in any quantities that it may be taken. It is harmless in every way, and has been used for forty years, and hundreds of the best and most prominent men from all parts of the country will vouch for its virtues, viz:

Hon Alexander H. Stephens, of Georgia.
Bishop Pierce, of Georgia.
Hon. Gill short r, ex Governor of Alabama.

CANVASSERS DOTTED UP IN THE MOST approved style at THIS CONSTITUTION office.

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad.

RAPID PROGRESS OF THE WORK.

THE building of the Northern Pacific Railroad (begun July, 1870) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 425 miles westward from Lake Superior; trains are running over 130 miles of finished road, and iron is laying at rapidly increasing speed toward the eastern border of Dakota. Including the purchase of the St. Paul and Pacific road, the Northern Pacific Company has now 412 miles of completed road, and by September next this will be increased to at least 550.

A Good Investment.—Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 20 years to run, bear Seven and Three-Tenths per cent. gold interest, (more than a per cent. currency,) and are secured by first and only mortgage on the entire road and its EQUIPMENTS, and also, at the rate of the Road is completed, on

12,000 Acres of Land to every mile of track or 5000 Acres for each $1,000 Bond. They are exempt from United States Taxes. Principal and Interest are payable in Gold: Denominations: Coupons, $ 50 to $1,000: Registered, $100 to $10,000.

Bonds for Lands.—Northern Pacific 7-30's are at all times receivable at THE PAR CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING WARRANTS.

Sinking Fund.—The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.

Exchanging U. S. Five-Twenties.—The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

Other Securities.—All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. Explicit circulars on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned. For sale by

THE SINGER
MANUFACTURING COMPANY,
AT THE WORLD'S FAIR,

CONSTITUTED by the homes of the people, received the Great Award of the Highest Sales, and have left all rivals far behind them, for they sold in 1870, One Hundred and Twenty-seven Thousand Eight Hundred and Thirty-three Machines.

The Singer Manufacturing Company sold over the Florence Sewing Machine Company ..... 110,173 Machines.
Sold over the Wilcox & Gibbs' Sewing Machine Company ..... 98,943 "
Sold over the Weed Sewing Machine Company ..... 92,821 "
Sold over the Grover & Baker Sewing Machine Company ..... 70,431 "
Sold over the Howe Maching Company ..... 52,977 "
Sold over the Wheeler & Wilson Manufacturing Company ..... 44,695 "

It is the most simple and easily regulated Machine now in use.

The shuttle gives an even tension from the full to the empty bobbin.

Makes the most durable, elastic and smooth stitch.

Stitching the softest muslin without drawing it into the feed, and from that to heavy cloth or leather without changing the tension, making it capable of a greater range of work than any other machine made.

We use the straight needle, and it will do more and finer work than the curved needles.

The work moves from you instead of sideways, which is much easier to manage.

For speed and ease of operation it is unequaled.

Our machinery is all protected from dust.

Its self-acting tucker, gatherer, quilter, trimmer, fringer, binder, hemmer, braider, feller and embroidery attachment are simple and easily used.

We have the best of silks of our own manufacture at wholesale and retail, of all colors and numbers.

We will place the Singer in your family for a trial with any machine you may wish to try with it.

The sales of our New Family Sewing Machine is steadily increasing, showing its popularity.

The new No. 1 Machine for Tailors and Bootmakers is the best in the market.

Examine before purchasing.

"Southern Books for Southern Schools."

School-Books which are Unsectional, Unpartisan, and Unpolitical.

PREPARED BY THE MOST EMINENT SOUTHERN SCHOLARS, AND

ENTIRELY ACCEPTABLE TO SOUTHERN TEACHERS AND PARENTS

Officially adopted by the Virginia State Board of Education.

AND NOW LARGELY IN USE IN

EVERY SOUTHERN STATE.

The University Publishing Co.,

An Association composed of many of the several Southern States, feeling the necessity for a series of School-Books which should be entirely unsectional, unpartisan, and unpolitical, which should present only the facts of history, and science—are now issuing a complete series of School and College Text-books by the eminent scholars and educators named below, which are the

Cheapest, Best, and Most Beautiful School-Books

Now published. The "University Series" embraces

MAURY'S GEOGRAPHICAL SERIES,

By Commodore M. F. MAURY, of the Virginia Military Institute. A series of books which mark an era in the study of this science, and which, in the words of a well known and accomplished Southern teacher, "are characterized by a felicity of arrangement and simple freshness of style which must ever render them attractive to the young, and which will be used by all who wish to teach Geography as a science, as something to make pupils think, and not merely as an enumeration of dry facts."

Holmes' Readers and Spellers,

By GEORGE F. HOLMES, LL.D., Professor of History and General Literature in the University of Virginia. A series of Readers unequaled in cheapness, excellence, and typographical beauty. They are steadily progressive in character, bright and fresh in their selections of prose and verse, and illustrative of Southern scenes, incidents, and history.

Venable's Arithmetical Series,

By CHARLES S. VENABLE, LL.D., Professor of Mathematics in the University of Virginia. These books are received everywhere by intelligent teachers with the highest satisfaction, as being most admirably adapted for mental drill, as well as for business education. Their methods, rules, and reasonings are clear, distinct, logical, and comprehensive, and the series is carefully graded throughout.

Holmes' History of the United States,

By GEORGE F. HOLMES, LL.D., of the University of Virginia. It is enough to say of this admirable work, interesting, impartial, and truthful, as well as pure and graceful in style, that it is the *only* History of the United States which is *strictly impartisan*. It comes down to the present date. Also,

De Vere's French Grammar, Readers, etc.,
Gildersleeve's Latin Series,
Carter's Elements of General History,
Holmes' English Grammars,
LeConte's Scientific Series,
Johnston's English Classics,
Duntonian Writing-Books, etc., etc.

Send for our new ILLUSTRATED DESCRIPTIVE CATALOGUE, which will be mailed free to any teacher or school officer. It tells what teachers think of the books, and contains specimen pages of each.
